Why choose SEI?

- We have over 45 years of unquestionable performance serving OEM's in the region. Our customers range from start-ups to Fortune 500 companies.
- SEI employs a trained and knowledgeable workforce of professionals with customer service as a top priority. Customer Engineering or schedule changes are managed routinely.
- We have the flexibility to handle prototype (NPI) through production requirements. We provide a turnkey or consignment order process including tested product.
- We are a Contract Manufacturer which can be your business partner acting as an extension to your manufacturing process.
- Our key supplier partnerships provide quality materials at competitive prices. With vendor programs such as Bonded Inventory, Vendor Managed Inventory (VMI) and Consignment, we can assure a constant materials pipeline from the manufacturer in support of customer requirements.
- Our job is to do it correctly and on time the first time. Our quality system enables us to support product that is consistent with our customers requirements.
