

Scott Electrocrafts, Inc.

CAPABILITY STATEMENT

COMPANY OVERVIEW

Scott Electrocrafts, Inc (SEI) is an AS9100D certified, Veteran Owned Small Business (VOSB).

As a leading electronic contract manufacturer, SEI excels in providing superior outsource Solutions to original OEMS and startup companies, diligently supporting their engineering and R&D endeavors by seamlessly transforming their designs from the prototype stage to the production phase.

SEI works closely with its esteemed clientele to effectively address the challenges pertaining to functionality and cost efficiency. From the intricacies of printed circuit board assemblies to the meticulous construction of custom cable harness assemblies and encompassing the comprehensive development of chassis and box Builds, SEI prides itself on delivering turnkey products. With a strong focus on professionalism and precision, we take immense pride in delivering unmatched outcomes, strengthening the confidence of our clients, and positioning ourselves as a trusted industry leader.
